

Expert Consulting & Advisory

Expert services to help companies optimize operations, reduce risk, make informed decisions, and enhance value.

At Breakwater, we know there is always a better way. We innovate process and automation to create efficient and effective approaches to information intelligence. Our solutions drive speed to insight for our clients, enabling them to act quickly and confidently with their information, whether responding to legal discovery, improving compliance, or protecting sensitive data. And our results deliver measurable value—reducing risk, improving quality, and saving money.

Information Governance

Breakwater's deep expertise across the spectrum of data-driven risk, as strategic advisors and reactive consultants, gives us the ability to synthesize internal and external factors impacting your business, and identify avenues for mitigation or resolution. We can help you build a strategic framework for your organization that allows you to control risk exposure and react seamlessly and swiftly, when necessary.

Our unique combination of consulting and modular platform enables custom solutions to address your organization's most pressing governance needs. We can provide analytical insights into areas of exposure and then work with you to implement best-of-breed solutions, including workflow, policies, procedures, data management, and architecture to work within your current environment.

Litigation & Disputes

Breakwater experts emphasize the criticality of accuracy, efficiency, and transparency, particularly when large amounts of data or complex technical processes are at issue. We help organizations and counsel strategically mitigate data risks in a dispute by leveraging our expertise and technical solutions to garner early, actionable data insights and develop repeatable, defensible solutions.

We assist organizations and counsel with scoping potentially relevant or high priority data sources, aggregation and analysis of disparate data sources, identifying key data insights to inform case strategy, damages, and exposure analyses, and expert opinions related to data-driven processes. We provide comprehensive advisory services related to data strategy and process improvement to mitigate the time, cost, and data risks associated with litigation or disputes.

Areas of Expertise

- Information Governance
 - Litigation & Disputes
 - Investigations & Regulatory Response
 - Cybersecurity, Privacy, Data Risk
 - Legal Data & Technology
-

Investigations & Regulatory Response

Breakwater's multidisciplinary team provides deep expertise in investigations, data, and technology to protect your organization. Our data experts and technology solutions enable organizations to strengthen governance and controls and garner early insights from key data sources to predict, detect, and remediate potential regulatory risks and exposures.

In the event of allegations of fraud or misconduct, Breakwater assists companies and their legal counsel to swiftly and strategically investigate, respond to, and resolve regulatory inquiries. Our experts will work with you on all aspects of an investigatory inquiry, including developing a data strategy, fact gathering, analysis of key data sources, reporting on key findings, and implementing improved controls to deter future risks.

Cybersecurity, Privacy, Data Risk

Breakwater experts draw on years in regulatory enforcement, military intelligence, legal practice and consulting, privacy development, and advisory work to bring clarity to preparation, management, and response. We bring data, technology, and industry insights together to implement solutions to know where risks may arise, how to address those risks, and simultaneously create response plans that are fluid, rehearsed, and delivered when crises occur.

We work with you to understand infrastructure, data footprints, and current framework to bring best-in-class solutions to complement your existing capabilities and bridge any areas of exposure. Additionally, we manage the risk tolerance as the landscape for cyber and privacy evolves to ensure that your solutions address today's and tomorrow's needs.

Legal Data & Technology

Rapid changes in technology, globalization, and regulation have pushed legal departments and law firms into a digital, transformed, and accelerated way of working. Timelines, expectations, and relationships have evolved, and now more than ever, legal professionals are expected to operate with purpose and efficiency. Clients, whether external or internal, require responsive, agile, and practical solutions.

Breakwater's Legal Data & Technology Solutions experts enable legal departments and law firms to be truly digital, agile, and data driven. We will help you define and implement clear, forward-looking, practical strategies with streamlined processes that create value by marrying people, process, technology, and, crucially, data. Whether you need a light touch to assess your current state, a deeper dive into best practices, or a strategic partner in a major, global transformation, we are here to support you.

About Breakwater

Breakwater helps mitigate risk and gain insight from sprawling information by combining technology automation and human expertise. Our expert consulting, software, and managed services address the challenges within information governance, disputes and investigations, regulatory compliance, privacy, cybersecurity, and legal operations. Our solutions allow governance, legal, and risk professionals to locate, access, analyze, and manage information by making data transparent and actionable. Breakwater helps clients in public and private sectors mitigate risk, improve productivity, and increase profitability by transforming how they use data.
